What the recovered evidence does—and does not—support

PUBLIC AND REGENERABLE

v1.1.0 source records
public synthetic receipts
figure regeneration from receipt summaries

PRIVATE QUALIFICATION

checkpoint/config/preprocessor links
recorded exact CPU-source agreement
original fitted artifacts not redistributed

FAILED / PARTIAL

10/18 saved-CUDA routes fail for M4–M8
root cause unresolved
rich-history row-count differences persist

NOT ESTABLISHED

athlete predictive validity
out-of-distribution transportability
clinical utility or production readiness

Categorical evidence scope only; no quantitative prediction or readiness score.
